Script Name:

Standard

Script Type:

Daily

Overview

The standard daily schedule script which gets assigned with the "rates" screen in a daily schedule. Without this script many of the functions within a daily will not work and a form of daily script is required in each daily schedule.

Dependencies

No dependencies.

Operation Example

No operation example

Configuration

- Assigned automatically against a daily schedule. They are only to be replaced with other bespoke daily schedule scripts.
- It CANNOT function without a script in the daily schedule.
