BambooHR Integration datasheet:

BambooHR

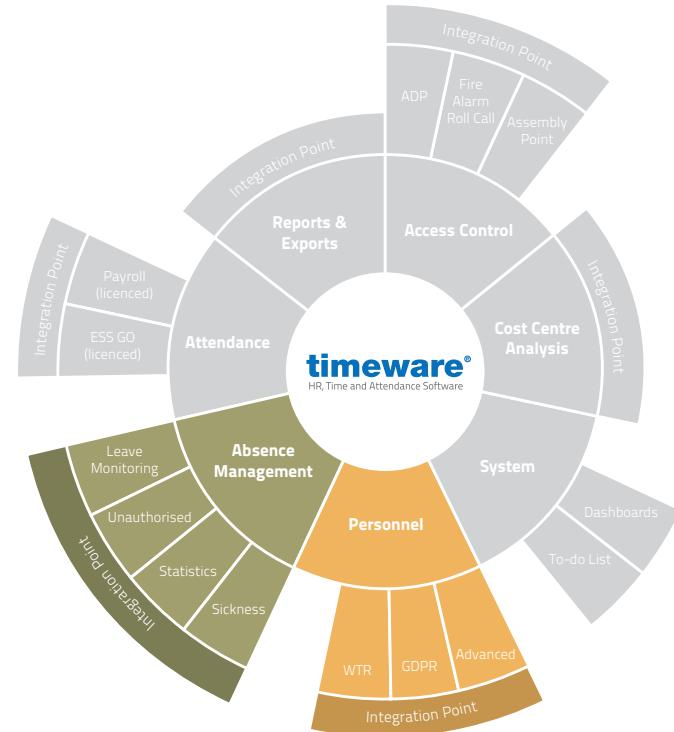

BambooHR is a cloud-based HR platform that simplifies people management by bringing recruitment, onboarding, performance, payroll, and absence tracking into one system. Its intuitive design and mobile apps make everyday HR tasks quick and accessible for both managers and employees. By automating processes and enabling self-service, BambooHR reduces administration while improving accuracy and compliance. With advanced reporting and analytics, it also provides valuable insights to support smarter workforce decisions, making it a scalable solution for organisations of all sizes.

timeware®/BambooHR Integration

The integration developed by timeware® works flawlessly between timeware® Professional (on-premise workforce/time management software) and BambooHR. It automates the transfer of employee data and approved leave information—eliminating time-consuming duplicate entries and ensuring both systems reflect accurate and up-to-date information.

Benefits at a glance:

- Single source of truth:** Employee records and leave data created or updated in BambooHR are synchronised instantly to timeware® Professional.
- Dual expertise, unified experience:** BambooHR delivers strategic HR tools; timeware® brings robust, flexible time and attendance management.
- Licensed annually:** Enables full integration with timeware® Professional under a yearly licence model.
